Ohio EMA Daily Situation Assessment Report (DSAR) – June 24, 2014

Items of Note

- Another round of strong thunderstorms will move across regions of the state today and tonight, bringing a heightened flood risk. Many areas are already saturated from recent storms. Thunderstorms today will be capable of producing very heavy rainfall again.
- The National Weather Service confirmed a possible high EF-1 or low EF-2 tornado touched down in Brunswick around 7:00 PM yesterday as a result of severe storms that swept through areas in Ohio. Reports of possible damage to Carol Jane Lake Dam in Medina Township.

Medina County Tornado and Dam

A severe thunderstorm and tornado impacted Medina County on Monday evening. A tornado damaged several homes, uprooted trees, caused power outages, and some other damages. No one was reported injured by the storms and there are no life safety issues at this time.

Heavy rains caused water to overtop the spillway at the Carol Jane Lake Dam. After an assessment by Ohio DNR, there were no immediate concerns for safety of Ohioans and infrastructure downstream. Additional work with the owner continues.

State Actions

Ohio EMA deployed a field liaison last night who will remain through today to support Medina County EMA. Offers of assistance have been made. ODOT was prepared to deploy scene lighting to support emergency responders, though the request was filled by local mutual aid.

Tornado Impacts

An initial damage and needs assessment was conducted and initial figures indicate

- 45 homes have been identified with some level of impact
 - 4 homes have major damage, two of these homes required local collapse search and rescue resources to conduct some shoring prior to clearing the scene early today.
 - 41 homes appear to be affected or have minor damage.
 - **Note:** this is the initial damage assessment and these figures are not final; final assessment figures will be completed and submitted later today. Most losses are expected to be insured.
- Path of Tornado

- Damage path was identified in area of Royal Oak and Acorn Drives moving in Brunswick City, path moved northeast, skipped over Brunswick High School and local recreation center and impacted secondary area of Brunswick City located in area of Clover and Old Eagle Drives.

Local Actions – Tornado Response and Recovery

Brunswick is addressing site access, debris removal, and law enforcement support of the event. Dumpsters are being coordinated for the residents. No state assistance has been accepted or requested, and no local emergency declaration has been made at this time.

Carol Jane Lake Dam State and Local Actions

Following initial reports of concerns, ODNR conducted an onsite evaluation last night/early this morning to assess dam structure. The assessment indicates that the facility is not at risk of immediate failure. Ohio DNR is communicating with the dam owner on actions to take to maintain the dam and prevent future concerns.

Oil Spill in Trumbull County

A large oil spill is reported at SR88 and Corey Hunt Road near the Grand River Wildlife Area. The Bristolville Fire Department is on scene and EPA is responding. The Assistant Chief of Bristol Fire Department reports the oil well has been shut down and the flow stopped. Initial assessment is that the oil well may have been leaking for a few days, and the preliminary estimate of the spill is now over 10,000 gallons. The oil has not spilled into the waterway. There are no requests for state assistance.

House Explosion in Fulton County

A propane tank in the basement of a Wauseon house exploded on Monday afternoon injuring the homeowner who was hospitalized with serious burns; four others received minor injuries. Local fire departments responded to the explosion and one neighboring structure received light damage. There are no requests for state assistance.

Explosion in Washington County

DPS Hub reports an explosion with fire at Enviro-Tank Clean Inc., 12381 SR7, just north of Belpre. The Washington County 911 Center advises it was an acid tank explosion. The fire has been extinguished.

Washington County EMA reports:

- 3 injuries reported and 1 walking wounded
- SR7 was closed in both directions, and reopened shortly before 11:00 am
- Marietta FD Hazmat responded and multiple FDs and EMS units were on scene
- OSHP and SO on scene
- Marietta Memorial Hospital was notified and activated their decon team. Other injured persons were transported to Camden Clark Memorial Hospital in West Virginia.

Note: Surveillance data is as of 1400 on 23 June 2014.

Road Closures

The Ohio Department of Transportation reports no Interstates or State Routes closed due to flooding or debris.

Power Outages

As of 11:30 AM, Ohio electric utility providers report approximately 9,462 homes and businesses without power statewide.

Statewide Weather

Flood Warning

A Flood Warning is in effect for Killbuck Creek near Killbuck in Wayne County from early this morning until further notice. This morning the stage was 13.6 feet and rising. Minor flooding is forecast.

Flash Flood Watch

A Flash Flood Watch is in effect through this evening for Ashland, Ashtabula Inland, Ashtabula Lakeshore, Crawford, Cuyahoga, Erie, Geauga, Hancock, Holmes, Huron, Knox, Lake, Lorain, Lucas, Mahoning, Marion, Medina, Morrow, Ottawa, Portage, Richland, Sandusky, Seneca, Stark, Summit, Trumbull, Wayne, Wood, Wyandot counties.

Weather Forecast

Today – Chance of showers and thunderstorms across Ohio, with possibly heavy rain in the north. Temperature highs in the upper 70s to mid-80s. Showers and thunderstorms likely overnight throughout areas of the state, with lows in the upper 60s.

Wednesday – Chance of showers and thunderstorms early in most areas of the state. Temperature highs in the low 70s to mid-80s. Partly cloudy overnight, with lows in the upper 50s to mid-60s.

Thursday – Mostly sunny statewide. Temperature highs from the low 70s to low 80s. Partly cloudy overnight from the low-to-mid-60s.

Ohio EMA Duty Officer

Mr. Saluja,

Tuesday we will be in the Northeast area reviewing some facilities, and may have the time to stop by EnviroClean. If time allows and we are able to stop, is there a number we should call? I would plan on a specific meeting time in the afternoon, but I am not sure how long our first meeting is going to take. I could give you about 1-2 hours notice. Our visit would just be to familiarize ourselves with EnviroClean's operations and review the Chief's order documents. Thanks.

Ohio EMA Daily Situation Assessment Report (DSAR) – June 24, 2014

Items of Note

- Another round of strong thunderstorms will move across regions of the state today and tonight, bringing a heighten flood risk. Many areas are already saturated from recent storms. Thunderstorms today will be capable of producing very heavy rainfall again.
- The National Weather Service confirmed a possible high EF-1 or low EF-2 tornado touched down in Brunswick around 7:00 PM yesterday as a result of severe storms that swept through areas in Ohio. Reports of possible damage to Carol Jane Lake Dam in Medina Township.

Medina County Tornado and Dam

A severe thunderstorm and tornado impacted Medina County on Monday evening. A tornado damaged several homes, uprooted trees, caused power outages, and some other damages. No one was reported injured by the storms and there are no life safety issues at this time.

Heavy rains caused water to overtop the spillway at the Carol Jane Lake Dam. After an assessment by Ohio DNR, there were no immediate concerns for safety of Ohioans and infrastructure downstream. Additional work with the owner continues.

State Actions

Ohio EMA deployed a field liaison last night who will remain through today to support Medina County EMA. Offers of assistance have been made. ODOT was prepared to deploy scene lighting to support emergency responders, though the request was filled by local mutual aid.

Tornado Impacts

An initial damage and needs assessment was conducted and initial figures indicate

- 45 homes have been identified with some level of impact
 - 4 homes have major damage, two of these homes required local collapse search and rescue resources to conduct some shoring prior to clearing the scene early today.
 - 41 homes appear to be affected or have minor damage.
 - **Note:** this is the initial damage assessment and these figures are not final; final assessment figures will be completed and submitted later today. Most losses are expected to be insured.
- Path of Tornado
 - Damage path was identified in area of Royal Oak and Acorn Drives moving in Brunswick City, path moved northeast, skipped over Brunswick High School and local recreation center and impacted secondary area of Brunswick City located in area of Clover and Old Eagle Drives.

Local Actions – Tornado Response and Recovery

Brunswick is addressing site access, debris removal, and law enforcement support of the event. Dumpsters are being coordinated for the residents. No state assistance has been accepted or requested, and no local emergency declaration has been made at this time.

Carol Jane Lake Dam State and Local Actions

Following initial reports of concerns, ODNR conducted an onsite evaluation last night/early this morning to assess dam structure. The assessment indicates that the facility is not at risk of immediate failure. Ohio DNR is communicating with the dam owner on actions to take to maintain the dam and prevent future concerns.

Oil Spill in Trumbull County

A large oil spill is reported at SR88 and Corey Hunt Road near the Grand River Wildlife Area. The Bristolville Fire Department is on scene and EPA is responding. The Assistant Chief of Bristol Fire Department reports the oil well has been shut down and the flow stopped. Initial assessment is that the oil well may have been leaking for a few days, and the preliminary estimate of the spill is now over 10,000 gallons. The oil has not spilled into the waterway. There are no requests for state assistance.

House Explosion in Fulton County

A propane tank in the basement of a Wauseon house exploded on Monday afternoon injuring the homeowner who was hospitalized with serious burns; four others received minor injuries. Local fire departments responded to the explosion and one neighboring structure received light damage. There are no requests for state assistance.

Explosion in Washington County

DPS Hub reports an explosion with fire at Enviro-Tank Clean Inc., 12381 SR7, just north of Belpre. The Washington County 911 Center advises it was an acid tank explosion. The fire has been extinguished.

Washington County EMA reports:

- 3 injuries reported and 1 walking wounded
- SR7 was closed in both directions, and reopened shortly before 11:00 am
- Marietta FD Hazmat responded and multiple FDs and EMS units were on scene
- OSHP and SO on scene
- Marietta Memorial Hospital was notified and activated their decon team. Other injured persons were transported to Camden Clark Memorial Hospital in West Virginia.

Potentially Significant Trends and Events of Public Health Importance

As of 6/23/2014, Ohio Department of Health reports there were 348 confirmed cases associated with the community outbreak of measles. The vast majority of cases are residents of Knox County. More information can be accessed at <http://www.odh.ohio.gov/features/odhfeatures/Measles%202014.aspx>.

County of Residence	Number of Measles Cases	Hospitalizations
Ashland	45	1
Coshocton	36	1
Crawford	1	
Highland	1	
Holmes	48	1
Knox	191	5
Richland	19	
Stark	6	
Wayne	1	
Total =	348	8

Note: Surveillance data is as of 1400 on 23 June 2014.

Road Closures

The Ohio Department of Transportation reports no Interstates or State Routes closed due to flooding or debris.

Power Outages

As of 11:30 AM, Ohio electric utility providers report approximately 9,462 homes and businesses without power statewide.

Statewide Weather

Flood Warning

A Flood Warning is in effect for Killbuck Creek near Killbuck in Wayne County from early this morning until further notice. This morning the stage was 13.6 feet and rising. Minor flooding is forecast.

Flash Flood Watch

A Flash Flood Watch is in effect through this evening for Ashland, Ashtabula Inland, Ashtabula Lakeshore, Crawford, Cuyahoga, Erie, Geauga, Hancock, Holmes, Huron, Knox, Lake, Lorain, Lucas, Mahoning, Marion, Medina, Morrow, Ottawa, Portage, Richland, Sandusky, Seneca, Stark, Summit, Trumbull, Wayne, Wood, Wyandot counties.

Weather Forecast

Today – Chance of showers and thunderstorms across Ohio, with possibly heavy rain in the north. Temperature highs in the upper 70s to mid-80s. Showers and thunderstorms likely overnight throughout areas of the state, with lows in the upper 60s.

Wednesday – Chance of showers and thunderstorms early in most areas of the state. Temperature highs in the low 70s to mid-80s. Partly cloudy overnight, with lows in the upper 50s to mid-60s.

Thursday – Mostly sunny statewide. Temperature highs from the low 70s to low 80s. Partly cloudy overnight from the low-to-mid-60s.

ORDER BY THE CHIEF

January 3, 2014

ORDER NO. 2014-10

TO: Enviro Tank Clean, Inc.
12381 State Rt. 7, Unit A
Belpre, Ohio 45714

RE: Enviro Tank Clean Waste Treatment Facility

SUBJECT: Temporary Authorization to Operate Facility Pursuant to R.C. 1509.22

Pursuant to Ohio Revised Code Section 1509.22, the Chief of the Division of Oil and Gas Resources Management ("Chief" or "Division") issues the following Order:

BACKGROUND:

- (1) Enviro Tank Clean, LLC ("Enviro Tank") operates a treatment facility located at 12381 State Route 7, Unit A, Belpre, Ohio ("Enviro Tank Facility"). The Enviro Tank Facility receives brine, drill cuttings, drilling muds, drilling sand and other waste substances, and solidifies the wastes for proper disposal at a landfill. Any residual brine will be properly disposed of at a permitted injection well.
- (2) Division (B)(2)(a) of R.C. 1509.22 states, in pertinent part, that "On and after January 1, 2014, no person shall store, recycle, treat, process, or dispose of in this state brine or other waste substances associated with the exploration, development, well stimulation, production operations, or plugging of oil and gas resources without an order or a permit issued under this section or section 1509.06 or 1509.21 of the Revised Code or rules adopted under any of those sections."
- (3) On December 30, 2013, the Division received an application from Enviro Tank requesting to operate the Enviro Tank Facility. In its application, Enviro Tank supplied the Division with information and details regarding its operations.

ORDER:

IT IS HEREBY ORDERED:

Enviro Tank has temporary approval to operate the Enviro Tank Facility in the State of Ohio, subject to the following **conditions**:

- (1) Enviro Tank shall conduct all operations in compliance with R.C. Chapter 1509 and Ohio Adm.Code 1501:9.
- (2) Brine shall not be disposed of in a manner not specified in R.C. 1509.22(C)(1)(a) through R.C. 1509.22(C)(1)(c). Disposal pursuant to R.C. 1509.22(C)(1)(d) requires separate written approval by the Chief.
- (3) This Chief's Order shall terminate upon any of the following, whichever occurs first:
 - a) The Division issues a permit to Enviro Tank for the Enviro Tank Facility pursuant to rules promulgated under R.C. 1509.22(C);
 - b) The Division denies a permit to Enviro Tank for the Enviro Tank Facility pursuant to rules promulgated under R.C. 1509.22(C); or
 - c) Six months after the effective date of rules adopted under R.C. 1509.22(C).

1/3/14
Date

Jan Rayfield, Deputy Chief
Richard J. Simmers, Chief
Division of Oil and Gas Resources Management

Addressee is hereby notified that this action is final and effective and may be appealed pursuant to Section 1509.36 of the Ohio Revised Code. If the Order is appealed to the Ohio Oil and Gas Commission, the appeal must be in writing and must set forth the Orders complained of and the grounds upon which the appeal is based. Such appeal must be filed with the Oil and Gas Commission, 2045 Morse Road, Building H-3, Columbus, Ohio 43229-6693, within thirty (30) days after receipt of this Order.

In addition, within three (3) days after the appeal is filed with the Oil and Gas Commission, notice of the filing must be submitted to Richard J. Simmers, Chief, Division of Oil and Gas Resources Management, Ohio Department of Natural Resources, 2045 Morse Road, Building F, Columbus, Ohio 43229-6693.

Ohio EMA Daily Situation Assessment Report (DSAR) – June 24, 2014

Items of Note

- Another round of strong thunderstorms will move across regions of the state today and tonight, bringing a heightened flood risk. Many areas are already saturated from recent storms. Thunderstorms today will be capable of producing very heavy rainfall again.
- The National Weather Service confirmed a possible high EF-1 or low EF-2 tornado touched down in Brunswick around 7:00 PM yesterday as a result of severe storms that swept through areas in Ohio. Reports of possible damage to Carol Jane Lake Dam in Medina Township.

Medina County Tornado and Dam

A severe thunderstorm and tornado impacted Medina County on Monday evening. A tornado damaged several homes, uprooted trees, caused power outages, and some other damages. No one was reported injured by the storms and there are no life safety issues at this time.

Heavy rains caused water to overtop the spillway at the Carol Jane Lake Dam. After an assessment by Ohio DNR, there were no immediate concerns for safety of Ohioans and infrastructure downstream. Additional work with the owner continues.

State Actions

Ohio EMA deployed a field liaison last night who will remain through today to support Medina County EMA. Offers of assistance have been made. ODOT was prepared to deploy scene lighting to support emergency responders, though the request was filled by local mutual aid.

Tornado Impacts

An initial damage and needs assessment was conducted and initial figures indicate

- 45 homes have been identified with some level of impact
 - 4 homes have major damage, two of these homes required local collapse search and rescue resources to conduct some shoring prior to clearing the scene early today.
 - 41 homes appear to be affected or have minor damage.
 - **Note:** this is the initial damage assessment and these figures are not final; final assessment figures will be completed and submitted later today. Most losses are expected to be insured.
- Path of Tornado
 - Damage path was identified in area of Royal Oak and Acorn Drives moving in Brunswick City, path moved northeast, skipped over Brunswick High School and local recreation center and impacted secondary area of Brunswick City located in area of Clover and Old Eagle Drives.

Local Actions – Tornado Response and Recovery

Brunswick is addressing site access, debris removal, and law enforcement support of the event. Dumpsters are being coordinated for the residents. No state assistance has been accepted or requested, and no local emergency declaration has been made at this time.

Carol Jane Lake Dam State and Local Actions

Following initial reports of concerns, ODNR conducted an onsite evaluation last night/early this morning to assess dam structure. The assessment indicates that the facility is not at risk of immediate failure. Ohio DNR is communicating with the dam owner on actions to take to maintain the dam and prevent future concerns.

Oil Spill in Trumbull County

A large oil spill is reported at SR88 and Corey Hunt Road near the Grand River Wildlife Area. The Bristolville Fire Department is on scene and EPA is responding. The Assistant Chief of Bristol Fire Department reports the oil well has been shut down and the flow stopped. Initial assessment is that the oil well may have been leaking for a few days, and the preliminary estimate of the spill is now over 10,000 gallons. The oil has not spilled into the waterway. There are no requests for state assistance.

House Explosion in Fulton County

A propane tank in the basement of a Wauseon house exploded on Monday afternoon injuring the homeowner who was hospitalized with serious burns; four others received minor injuries. Local fire departments responded to the explosion and one neighboring structure received light damage. There are no requests for state assistance.

Explosion in Washington County

DPS Hub reports an explosion with fire at Enviro-Tank Clean Inc., 12381 SR7, just north of Belpre. The Washington County 911 Center advises it was an acid tank explosion. The fire has been extinguished.

Washington County EMA reports:

- 3 injuries reported and 1 walking wounded

- SR7 was closed in both directions, and reopened shortly before 11:00 am
- Marietta FD Hazmat responded and multiple FDs and EMS units were on scene
- OSHP and SO on scene
- Marietta Memorial Hospital was notified and activated their decon team. Other injured persons were transported to Camden Clark Memorial Hospital in West Virginia.

Potentially Significant Trends and Events of Public Health Importance

As of 6/23/2014, Ohio Department of Health reports there were 348 confirmed cases associated with the community outbreak of measles. The vast majority of cases are residents of Knox County. More information can be accessed at <http://www.odh.ohio.gov/features/odhfeatures/Measles%202014.aspx>.

County of Residence	Number of Measles Cases	Hospitalizations
Ashland	45	1
Coshocton	36	1
Crawford	1	
Highland	1	
Holmes	48	1
Knox	191	5
Richland	19	
Stark	6	
Wayne	1	
Total =	348	8

Note: Surveillance data is as of 1400 on 23 June 2014.

Road Closures

The Ohio Department of Transportation reports no Interstates or State Routes closed due to flooding or debris.

Power Outages

As of 11:30 AM, Ohio electric utility providers report approximately 9,462 homes and businesses without power statewide.

Statewide Weather

Flood Warning

A Flood Warning is in effect for Killbuck Creek near Killbuck in Wayne County from early this morning until further notice. This morning the stage was 13.6 feet and rising. Minor flooding is forecast.

Flash Flood Watch

A Flash Flood Watch is in effect through this evening for Ashland, Ashtabula Inland, Ashtabula Lakeshore, Crawford, Cuyahoga, Erie, Geauga, Hancock, Holmes, Huron, Knox, Lake, Lorain, Lucas, Mahoning, Marion, Medina, Morrow, Ottawa, Portage, Richland, Sandusky, Seneca, Stark, Summit, Trumbull, Wayne, Wood, Wyandot counties.

Weather Forecast

Today – Chance of showers and thunderstorms across Ohio, with possibly heavy rain in the north. Temperature highs in the upper 70s to mid-80s. Showers and thunderstorms likely overnight throughout areas of the state, with lows in the upper 60s.

Wednesday – Chance of showers and thunderstorms early in most areas of the state. Temperature highs in the low 70s to mid-80s. Partly cloudy overnight, with lows in the upper 50s to mid-60s.

Thursday – Mostly sunny statewide. Temperature highs from the low 70s to low 80s. Partly cloudy overnight from the low-to-mid-60s.
