1509:03 1501: 9-3-07(D) Exceeding maximum allowable injection pressure

NOV Requirements: Inspection requires action
I found the injection well not operating during my inspection. The pressure on the injection tubing gauged at 1,080 psi, which is above the maximum allowable pressure. The fencing around the injection well was locked. Identification signs are posted. I observed no leaks or spills. I instructed the facility operator not to operate the injection well until the pressure has dropped below the maximum allowable pressure. A compliance notice has been issued. A follow up inspection will be conducted by 2/7/2019.
